PRODUCT DATA SHEET

CGPT SATIN TEXTURED DISPLAY FILM

CG Satin textured display fim is a 300 micron PVC/PET film with a grey back is ideal to produce roll up banner stands with no edge curl, water proof tear resistant posters and internal hanging banners. It has a satin textured finish for a high quality laminated look and is suitable for Solvent, Latex & UV Curable inks. The grey liner offers block out and a great level of opaqueness for a vivid print finish.

APPLICATIONS

- Roll up banners
- Waterproof
- Tear resistant posters
- Internal hanging posters
