Kwik-Fix

Fix It, Move It & Reuse It

Use Kwik-Fix discs to attach signs to external and internal posts. Simply apply the self-adhesive pad to the back of your sign and use a cable tie to secure the sign in place.

Each disc is exceptionally strong and can hold in excess of 4kg. It's mechanical strength ensures that it can withstand tough weather conditions. The sign can be reused time and time again.

Product Description

75mm Self-Adhesive Disc, molded to fit to most posts, the fixing channel allows up to 16mm wide cable tie, screw hole if required

Application Instructions...Couldn't be simpler!

- Ensure the back surface of the sign is clean, grit & grease free.
- Remove liner from pad and apply to the back of the sign using pressure.
- Allow 24hrs for 90% bond
- Fit to post using cable tie or back-to-back hook & loop threaded through the 16mm wide fixing channel

High Performance Acrylic Adhesive that you can trust!
Proven to bond well to various rigid sign materials including Corflute, Di-bond, wood, glass, acrylic, foamex and other composite materials. Designed to hold significant weight, long-term, externally.

Help the Environment - The same sign can be used over and over again in different locations
